Precision-Driven Support. Mission-Focused Results.

At EEC-Lukos JV, we pride ourselves on delivering mission-focused, data-driven solutions to our federal and defense partners. As a joint venture between EEC Solutions and Lukos, we merge the operational insight and agility of a growing firm with the proven performance of a veteran defense contractor. Our services span program management, human capital, training, IT, and medical support—designed to meet the needs of today's dynamic federal landscape.

Program & Project Management

We oversee multimillion-dollar government programs using proven management frameworks and real-time tracking tools to ensure seamless coordination, compliance, and delivery.

Training & Operations Support

We design and deliver specialized training aligned with DoD priorities, including joint force development, leadership development, and inter-agency operations.
